## ACCENTURE

### About Accenture

Accenture is a global management consulting, technology services and outsourcing company. Committed to delivering innovation, Accenture collaborates with its clients to help them become high-performance businesses. With deep industry and business expertise, broad global resources and a proven track record, Accenture can mobilize the right people, skills and technologies to help clients improve their performance.

### Working Here

Accenture is a multi-workforce company. Each workforce contributes to our business in a different but complementary way and our business strategy depends on the different workforces blending together as an integrated whole.

### Consulting

Our Consulting workforce is at the heart of our ability to innovate and deliver results that help create high performance. With deep specialist knowledge in business, industry, technical and functional areas, consulting people are responsible for designing, building and delivering high value solutions that help our clients move forward in every part of their business.

### Accenture Technology Solutions

This is a wholly-owned subsidiary of Accenture that employs technology enthusiasts who focus on application development, systems administration, and software maintenance. They collaborate with our global network of consulting and services experts to offer our clients a "start-to-finish" approach to technology challenges.

### Services

Services people work on Accenture's outsourcing projects. We build long-term partnerships with our clients through the management and provision of their business operations such as software maintenance, finance and accounting, and human resources. The work done by our Services workforce is a vital part of the value that we deliver to our clients, enabling them to concentrate on achieving high performance.

### Corporate Functions

Our Enterprise workforce provides deep expertise to manage and operate Accenture's business functions and support client teams. They work in a wide range of functional areas, including human resources, marketing and communications, finance, quality control, legal, IT, facilities and services.
