Answer **six** of the following eight questions
(three for British civilisation, three for American civilisation).

British civilisation.

- What are the main stages in a general election?
- What are the main regions of economic activity in Great Britain?
- Can you give a general view of the British education system?
- What are the consequences of the "class system" in Great Britain?

American civilisation.

- Which institutions or persons represent the various powers (executive, legislative, judiciary) in the United States, at federal level?
- Why has the United States been called "a nation of immigrants"?
- Can you give a general view of the United States' territory and of its main economic activities?
- What are the main "minority" groups in the United States?
