1/ "The Judicial Branch in the U.S.A."

2/ Comment on this letter sent by a reader to a local newspaper. Quote from the text. Quickly explain the underlined words in your commentary.

Big Brother is reaching for your gun

Attention, all gun owners — On June 28, the Supreme Court of the United States of America handed down a decision that allows you to keep your guns for a while longer.

5 Four of the judges, including the woman Obama just put on the court and the lady Clinton put on the court, voted to take away our guns. Obama is about to put another woman on the court with the same attitude. Fortunately for us, five fellows including the two judges G.W. Bush selected, saved our guns for us.

We were all raised knowing we had the Second Amendment to our Constitution as our authority to own guns. Look over your shoulder — Big Brother is reaching for your gun. When he gets it, you will
10 need his permission to use it when and where approved. Sounds silly; listen to these leaders talk about their needing to control guns and by what means.

A five-to-four majority on this court is pretty fragile, and Obama has years yet in office and we see who he appoints to the court.

Once our Second Amendment is set aside or severely restricted, no one now alive will ever see it back.

15 Our only hope is to deny him this rubber stamp Congress¹. A number of conservative candidates are introducing themselves to you. Meet them, talk to them, tell them what you want.

I know people that have never bothered voting because "politicians are all the same." The voters that believed the "TV newsman" must know best and voted that way are the ones that got us into this trouble.

20 This may be our last chance. Let's get it right before it can't be fixed.

Lyle Kruschke

¹ =Our only hope is to make sure the Congress is not entirely on his side.
